

INJECTION ACCESSORIES *Packers and Ports*

High Pressure Mechanical Ports

1/2" Mechanical Packers — Part #500

1/2" expanding port, orange in color, For high pressure only, 100 / box. **APPLICATION:**

Injection of chemical grouts and epoxy resins in sound or deteriorating concrete. (Packer neck requires 3/8" or 10mm socket wrench, zerk fitting requires 9/32" socket wrench.)

1/2" Mechanical Packers — Part #550

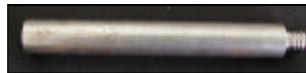

1/2" expanding port, red in color, For high pressure only, 50 / box. **APPLICATION:**

Injection of chemical grouts and epoxy resins in sound or deteriorating concrete. (Packer neck requires 1/16" or 14mm socket wrench, zerk fitting requires 5/16" or 8mm socket wrench.)

1/2" x 4" Packer Extension — Part #504

APPLICATION: Threads into part #550, 1 / box

5/8" Mechanical Packers — Part #625

5/8" expanding port, yellow-green in color, For high pressure only, 100 / box.

APPLICATION: Injection of chemical grouts and epoxy resins in sound or deteriorating concrete. For deep drilling. (Packer neck requires 3/8" or 10mm socket wrench, zerk fitting requires 9/32" socket wrench.)

3/8" Bang-In Ports — Part #640

3/8" tapered port, threaded zerk fitting, for high pressure only, 100 / bag. **APPLICATION:**

Injection of chemical grouts and epoxy resins in new or sound concrete. (Zerk fitting requires 5/16" or 8mm socket wrench.)

3/8" Bang-In Ports — Part #640-1

Same as Part #640 above with the addition of a flush wand. **APPLICATION:**

Flush wand is used to flush drilled hole prior to installation of bang-in port.

Low Pressure Plastic Ports

Plastic Surface Mount Ports — Part #652 With Attached Plastic Cap

Surface mount port. Large opening for static mixers. Low pressure only. 100 / bag

APPLICATION: For use with 1/2" static mixers and Prime Rez 1600 Injection Gel.

Plastic Surface Mount Ports — Part #653

Y-shaped base, Low pressure only. Will accept cartridge systems and other pressure injection equipment. 100 / bag.

APPLICATION: Epoxy Injection.

Plastic Corner Mount Ports — Part #655

Low pressure only. Will accept cartridge systems and other pressure

injection equipment. 100 / bag. **APPLICATION:** Epoxy Injection.

Socket Mount Ports — Part #660

For 1/2" holes. Low pressure only. Will accept cartridge systems and other pressure injection equipment. 100 / bag.

APPLICATION: Injection of chemical grouts or epoxy resins for either direct or offset injection.

1/4" Caps for Plastic Ports — Part #662

100 / bag. **APPLICATION:** For use with Part #653, 655, 660. Used to close port after injection.

1/4" Crimps for Plastic Ports — Part #663

100 / bag. **APPLICATION:** For use with Part #653, 655, 660. Used to close port after injection.
